DETAILED ACTION***Election/Restrictions***

1. The timely submission under 37 CFR 1.129(a) filed on 9-26-03 is not fully responsive to the prior Office action because the applicant has not elected ONE of the species required by the examiner. Even if the applicant does not agree with the species requirement, ONE of the species specified by the examiner must be elected. Since the submission appears to be a *bona fide* attempt to provide a complete reply to the prior Office action, applicant is given a shortened statutory period of ONE MONTH or THIRTY DAYS from the mailing date of this letter, whichever is longer, to submit a complete reply. This shortened statutory period supersedes the time period set in the prior Office action. This time period may be extended pursuant to 37 CFR 1.136(a). If a notice of appeal and the fee set forth in 37 CFR 1.17(e) were filed prior to or with the payment of the fee set forth in 37 CFR 1.17(r), the payment of the fee set forth in 37 CFR 1.17(r) by applicant is construed as a request to dismiss the appeal and to continue prosecution under 37 CFR 1.129(a). The appeal stands dismissed.

2. The applicant argues that Figures 1 through 8 are a single species. This is unclear. Clearly figures 2, 3, 5, 6 and 8 are different embodiments of the optical function module. Further figures 9, 10, 11, 12 etc. are also different embodiments of the optical function module. Different figures (embodiments) are the definition of species. If the applicant feels that they are obvious variants of each other and are not patentably distinct (see second paragraph on page 3 of the previous office action). But in this case, if the examiner then finds ONE of the species, he can use the applicant's statement that they are not patentably distinct to reject these claims. Further, some of the claims that applicant says read on the species are incorrect. For example,

Art Unit: 2633

clearly claims 21-23 do not read on figure 2. Claim 9 does not read on figures 3 and 5. Claim 1 does not appear to read on figures 5 and 6. Claim 2 does not read on figure 6. Applicant MUST elect one species and must specify only the claims that read on that species.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Alex H Chan whose telephone number is (703) 305-0340. The examiner can normally be reached on Monday to Friday (8am to 6pm EST).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's primary examiner Leslie Pascal can be reached on (703) 305-4922 or his supervisor, Jason Chan, can be reached on (703) 305-4729. The fax phone number for the organization where this application or proceeding is assigned is (703) 872-9306.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 305-3900.
